Dear Cyrus:

I was very pleased to hear from you and am most gratified to receive the copy of Professor Schwartz' brief which I failed to get from you in Chicago due to the confusion following the Conference.

I also intend that this letter be formal notification to you of the fact of your appointment to the chairmanship of the NACHO Special Committee on Legal affairs. This is done with the concurrence of the Executive Board or Committee. Needless to say your name has been at the top of the list of those considered for the post. The appointment would have been made at the first meeting of the Executive Committee in Chicago following the Conference but for the fact that some members were called away before this action could be taken, necessitating correspondence to some length.

Let me say that I personally am pleased to make this appointment and know that your talents are much appreciated in our common effort. I also would like to recommend to you for possible appointment to your committee Mr. Ray Hill of the Promethean Society in Houston, Texas. I approached him at our Midwest Regional meeting this past week in Kansas City, and he assured me that he would be pleased to serve in such a capacity. I am sure that you will find many able and worthy people in the movement to work with you.

I would be happy to hear from you any suggestions which you might present which the Conference or the Executive Committee might implement.

Yours Sincerely,

Marc Jeffers
